

ICE MELT

ICE AND SNOW MELTER

10 TIMES BETTER THAN SALT
Works in temperatures down to -50°C

ADVANTAGES

- **Powerful warming capacity** ICE MELT releases 90,000 calories/kg.
- **Fast** ICE MELT melts snow faster than salt.
- Easy to use: ICE MELT is applied by hand or with a shovel.
- Economical: 1 kg of ICE MELT to melt **7 to 10 m²** of ice vs. 1 kg. of salt to melt 1 m².
- Withstands low temperatures: ICE MELT remains active in temperatures down to -50°C.
- Long-term effectiveness: the water formed by the melted snow and ice will not refreeze for several days.
- Innocuous: unlike salt, ICE MELT is not corrosive; it is therefore harmless to auto bodies, cement side walks, garden vegetation . . .
- Powerful anti-moisture capacity: ICE MELT absorbs up to 5 times its weight in water.

DESCRIPTION

Color: creamy white
Density: about 900 g per litre

INSTRUCTIONS

Anti-ice, anti-snow: ICE MELT is used in work places, pedestrian passageways, vehicle access ramps (roads, doorways, entrances to stores, factory warehouses, stairways, cold storage rooms . . .)

- Remove the bulk of the snow or ice
- Spread ICE MELT evenly at the rate of 1 to 2 kg per 10 m²
- Let stand; ICE MELT digs in and loosens snow and ice
- After 15 min., it is possible to remove the ice or snow with a shovel

Anti-moisture ICE MELT is used for drying: cellars, damp warehouses, secondary residences . . .

- Place a mesh bag (or nylon stocking) filled with ICE MELT (1 to 2 kg) over a basin with a capacity 5 to 10 times the volume of ICE MELT
- The best results are obtained with good ventilation and a mesh bag for 5 to 10 m³

WARNING: store ICE MELT in a dry location

PACKAGING

14 l pail	ref .8907 S2	x 4	Palette of 40 pails
25 kg bag	ref. 8907 S5	x 1	Palette of 40 bags
1 ton BIG BAG	ref. 8907 BB	x 1	

1/1

Manufacturing site and registered office

Parc Industriel de la Plaine de l'Ain - 225 allée des Cèdres - 01150 Saint-Vulbas - FRANCE
